

Astra Group Product & Service approach

- 01

One-Stop Principle
You receive a comprehensive IT solution package and all the necessary services in one place.
- 02

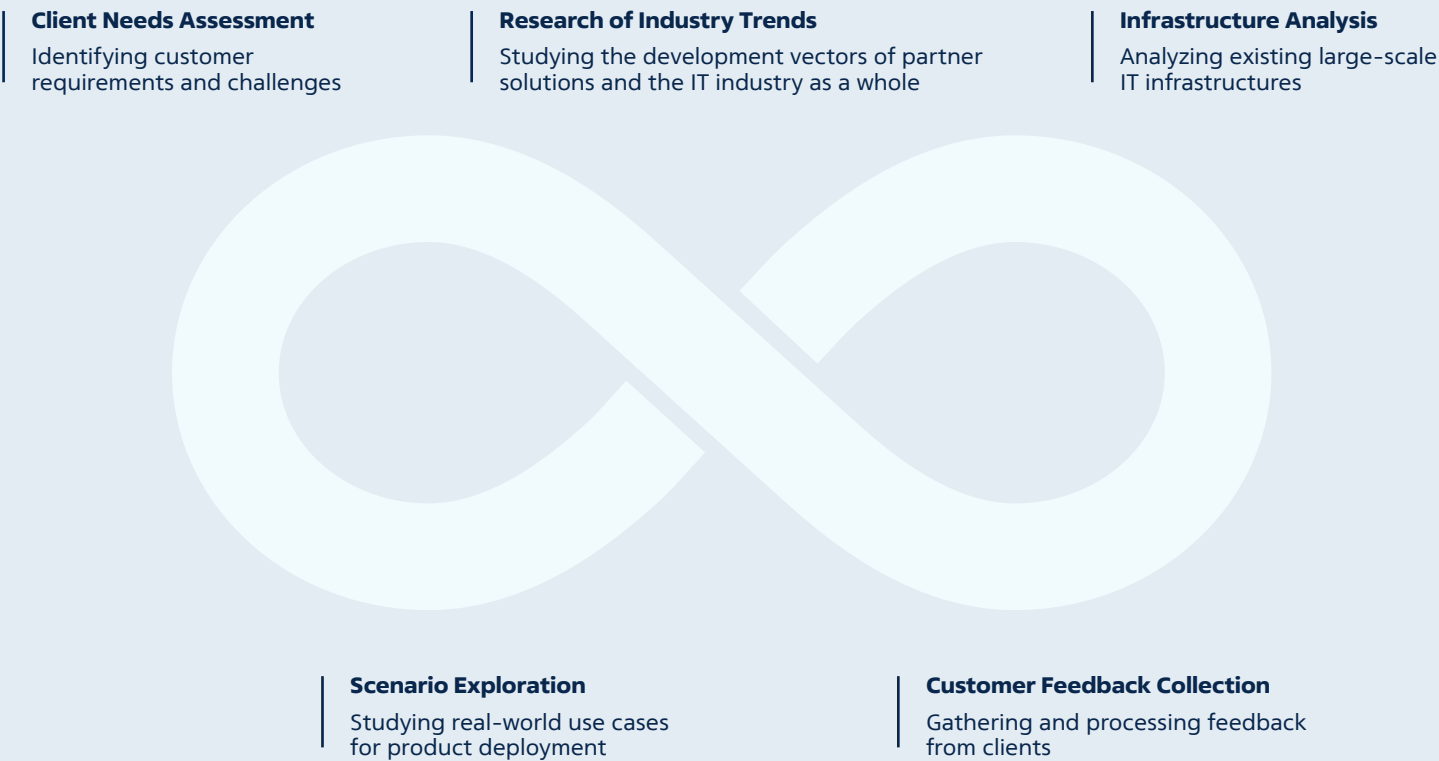

Automation
A set of tools for automated deployment, management, and maintenance of IT systems.
- 03

Integration
All our products are interconnected and easily integrate with each other and with third-party vendor solutions.
- 04

Security
Unique information security tools (IST) built into Astra Linux Special Edition ensure maximum infrastructure protection.
- 05

Certification
At the core of our ecosystem is the Astra Linux platform, certified by all relevant regulators (FSTEC for Level 1 Trust, Ministry of Defense for Class 1 Security, and FSB).

We manage the development of our software stack flexibly and align our product roadmaps with the most relevant market trends and business tasks:
